

HANA ELNEGERY

Front-End Developer

+20 101 588 3298 | elnegeryh@gmail.com | LinkedIn | Github

SUMMARY

Front-End Developer specializing in Angular and TypeScript, with hands-on experience building responsive web applications and integrating REST APIs. Skilled in Angular, JavaScript, HTML, CSS, Bootstrap, and Tailwind CSS, with a strong focus on reusable components, clean code, responsive interfaces, and maintainable applications.

EXPERIENCE

Route Academy — Front-End Development Diploma

Sep 2025 – Apr 2026

- Built responsive web applications using modern front-end technologies, with hands-on practice in Angular, TypeScript, JavaScript, reusable components, routing, forms, and REST API integration.

Angular Summer Code Camp, ITI

Jul 2025 – Sep 2025

- Completed a 150-hour Angular training program covering components, services, routing, guards, reactive forms, HTTP requests, and standalone components.

PROJECTS

- SocialNetwork App - Social Media Web Application

Angular • TypeScript • RESTful APIs • Tailwind CSS

- Developed a modern social networking platform with a scalable architecture for user authentication, personalized feeds, profiles, notifications, and account management.
